

Description

Easyroll 125mm Urethane Wheel Precision Bearing 340kg is built with a polypropylene core and hub combined with a durable polyurethane wheel and precision carbon bearings. Designed for trade professionals, it offers reliable performance through precision engineering and smooth movement, making it ideal for demanding applications. Suitable for both indoors and outdoors, its black and red design supports continuous operation and secure handling under load.

Features

- Urethane wheel with precision carbon bearings for smooth motion
- Polypropylene hub and wheel core designed for enhanced durability
- Distinctive black and red finish for visual clarity
- Designed for both indoor and outdoor applications
- Precision bearing technology minimises drag during movement
- Heavy duty construction supports up to 340kg loads
- Engineered from high-grade polyurethane and polypropylene materials
- Engineered for reliable performance in routine handling tasks

Product Code: W84K125

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	340.0
------------------	-------

Appearance

Product Colour	Black/Red
----------------	-----------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Polyurethane
Bearing Material	Carbon
Hub Material	Polypropylene

Dimensions

Tread Width	40
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	125

Weights

Product Weight (grams)	731
Product Weight (kg)	0.731
