

Description

Easyroll 150mm Urethane Wheel Precision Bearing 450kg is a heavy duty wheel designed for demanding applications in professional settings. The wheel features a robust urethane composition paired with a precision carbon bearing, housed in a strong polypropylene core and hub. Its black and red finish ensures consistent performance in indoor and outdoor workspaces, providing dependable manoeuvrability and load-bearing capacity for trade professionals.

Features

- 150mm diameter wheel supports up to 450kg load capacity
- Constructed from robust polyurethane with a polypropylene core
- Precision carbon bearings ensure smooth rolling performance
- Engineered hub made of polypropylene for consistent stability
- Designed for versatile use indoors and outdoors
- Urethane wheel material resists wear for prolonged service
- High quality components assembled for reliable rotation and control
- Easyroll heavy duty wheels offer dependable performance under load

Product Code: W84K150

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	450.0
------------------	-------

Appearance

Product Colour	Black/Red
----------------	-----------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Polyurethane
Bearing Material	Carbon
Hub Material	Polypropylene

Dimensions

Tread Width	41
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	150

Weights

Product Weight (grams)	942
Product Weight (kg)	0.942
