

## Description

Easyroll 200mm Urethane Wheel Precision Bearing 500kg is a heavy duty wheel engineered with a polypropylene core and hub, polyurethane wheel, and precision bearings made from carbon for robust performance. Its design supports efficient movement and load handling in various professional applications, enhancing workflow reliability. The product is tailored for industrial and trade professionals seeking practical, durable solutions for both outdoor and indoor use.

## Features

- Robust urethane wheel designed for 500kg load capacity
- Precision carbon bearings deliver smooth and consistent rotation
- Polypropylene wheel core and hub provide lasting stability
- Polyurethane material offers durable wear resistance under heavy use
- Bold black red finish ensures clear visual identification
- 200mm diameter enables compact manoeuvrability
- Engineered for reliable performance across diverse surface types
- Trusted Easyroll design supports rigorous daily operational tasks
