

Description

Easyroll 125mm Urethane Wheel Precision Bearing 410kg is a heavy duty wheel engineered for reliable material handling and movement in professional settings. It features a cast iron wheel core and hub, a polyurethane wheel surface, and carbon precision bearings that ensure consistent performance across various tasks. The design supports well-planned manoeuvres while accommodating heavy loads outdoors and indoors. This robust construction delivers efficient operation, making it a valuable asset for trade professionals seeking dependable technical performance.

Features

- Durable polyurethane wheel resists abrasions and impact damage
- Cast iron core provides structural integrity and strength
- Precision bearing with carbon material ensures smooth rolling performance
- Robust cast iron hub enhances overall wheel stability
- Black and red design offers a professional appearance
- Engineered for reliable indoor and outdoor mobility
- Advanced design supports heavy loads and reliable movement
- Smart engineering delivers durability and extended service life

Product Code: W85K125

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	410.0
------------------	-------

Appearance

Product Colour	Black/Red
----------------	-----------

Construction

Wheel Core Material	Cast Iron
Wheel Material	Polyurethane
Bearing Material	Carbon
Hub Material	Cast Iron

Dimensions

Tread Width	49
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	125

Weights

Product Weight (grams)	1399
Product Weight (kg)	1.399
