

Description

Easyroll 150mm Urethane Wheel Precision Bearing 480kg is a heavy duty wheel employing a cast iron wheel core, polyurethane wheel and cast iron hub. Precision carbon bearings provide accurate movement for material handling applications. This robust design offers durability and reliability for trade professionals working in demanding settings. Suitable for both outdoor and indoor operations, it ensures efficient load handling and consistent performance.

Features

- Cast iron wheel core provides robust support for heavy loads
- Polyurethane wheel offers durable, high-grip surface for smooth rolling
- Precision carbon bearings ensure consistent, low-friction wheel rotation
- Cast iron hub provides stability and enduring structural strength
- Operates indoors and outdoors for flexible transport
- Heavy duty build supports demanding load requirements
- Engineered wheel design reduces vibration during heavy use
- Distinct black and red finish provides clear equipment contrast

Product Code: W85K150

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	480.0
------------------	-------

Appearance

Product Colour	Black/Red
----------------	-----------

Construction

Wheel Core Material	Cast Iron
Wheel Material	Polyurethane
Bearing Material	Carbon
Hub Material	Cast Iron

Dimensions

Tread Width	49
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	150

Weights

Product Weight (grams)	1623
Product Weight (kg)	1.623
