

Description

Easyroll 150mm Nylon Wheel Precision Bearing 500kg is a heavy duty wheel featuring a nylon construction with a polypropylene hub and wheel core, combined with precision carbon bearings. It is designed for smooth manoeuvrability and precise load handling, supporting a variety of transport and maintenance tasks for trade professionals. Its black finish and robust design offer clear technical advantages in daily material management.

Features

- Heavy duty design supporting heavy loads using sturdy materials
- Precision carbon bearings for smooth and reliable rotation
- Nylon wheel material enhances durability and wear resistance
- Black finish complements both indoor and outdoor applications
- Polypropylene hub and core provide structural stability
- 150mm wheel size suited for heavy load movement
- Engineered for dependable operation across various mobility tasks
- Quality construction ensures long lasting performance and service

Product Code: W87K150

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	500.0
------------------	-------

Appearance

Product Colour	Black
----------------	-------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Nylon
Bearing Material	Carbon
Hub Material	Polypropylene

Dimensions

Tread Width	40
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	150

Weights

Product Weight (grams)	818
Product Weight (kg)	0.818
