

Description

Easyroll 200mm Nylon Wheel Precision Bearing 550kg is designed to provide dependable mobility for a range of applications. Engineered with a robust nylon wheel and precision carbon bearings, it offers smooth rotation and excellent load support. The combination of durable polypropylene components and high-performance materials ensures operational consistency. This product supports effective material movement, making it a valuable solution for trade professionals seeking reliable handling and prolonged service life in both indoor and outdoor settings.

Features

- Constructed with durable polypropylene wheel core and hub
- Heavy duty nylon wheel maximise load carrying capacity
- Precision carbon bearings ensure smooth and dependable performance
- Suitable for both indoor and outdoor applications
- Expertly engineered design for robust material handling
- Black finish reinforces durability under continuous use
- Nylon composition enhances resistance to impact and wear
- Heavy load capacity supported by precision composite components

Product Code: W87K200

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	550.0
------------------	-------

Appearance

Product Colour	Black
----------------	-------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Nylon
Bearing Material	Carbon
Hub Material	Polypropylene

Dimensions

Tread Width	40
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	200

Weights

Product Weight (grams)	1167
Product Weight (kg)	1.167
