ArmaSkin

Product Specification	
Adhesive	Solvent-free glue to one side
Colour	Semi-transparent
Glue Resistance Temperature	-18° > +58°C
Liner	Silicone paper 90g - yellow
Material	PVC Foil – UV stable
Micron	150mm
Solar Ray Transmittance	50%
Temperature Application Range	-30º > +60ºc
Thickness	150 microns
UV Resistance	12 months
Waterproof	Yes

Range

Code	Size
ARMASKIN25M	1110mm x 25m

ArmaSkin is a clear heavy duty and high performance temporary protection film for glass facades. With a unique adhesive coating,Armaskin is easily removed without leaving a residue. Can be in place for up to 12 months without replacement.

Features & Benefits

- Exceptional performance - Heavy duty film prevents damage to glass including impact damage, grinding splatter, welding sparks, liquids.
- Flame retardant - Conforms to EN13501, classification B-s1, d0.
- Simple installation - Designed to be applied directly to the glass without technical skills
- Easily removed - Simply peel off leaving no residue, significantly reducing cleaning costs and eliminating further risk of accidental damage.
- High-tack - Stays in place for up to 12 months without leaving any residue.

Applications

Protecting Glass Facades

Protecting Glazing and Curtain Walling

Protecting Glass Partitions

Installation Instructions/Guidelines

- Clean the surface to remove dirt and dust, then carefully dry the surface ensuring there is no moisture
- Cut the film to fit the surface being protected. Do not cut directly on the glass or surface
- Remove the protective film liner and apply directly to the surface making sure that the film is adhered properly

Handling & Storage

- Keep the product in a cool dry place, away from heat sources and direct exposure to the sun. The storage place must have a temperature not exceeding 25oc. Shelf life from date of manufacture is 12 months. Safety In case of internal or external usage with high UV exposure, 12 months after application, check periodically for any deterioration of the film. That will show as signs of yellowing and stiffness and could affect removal of the product.
