Air Source Heat Pump Cover

Product Specification	
Colour	Grey and black
Material	Heavyweight PVC and PVC mesh
Product Height	870mm
Width	1300mm

Width 1300 mm, Depth 400 mm, Height 870 mm.

A made-to-measure temporary cover designed to protect heat pumps from dirt, dust and light damage during landscaping and final site works. The top is lightly padded for added protection against knocks, while slits at the front and back allow for easy pipework access. The cover also allows full operation for commissioning and testing, so protection doesn't compromise performance.

Features & Benefits

- Durable- heavy-duty for use on multiple plots
- Cost-effective - reduces repair and replacement costs
- Shields against dust, dirt, and debris during site activity
- Reusable
- Slits at the front and back to allow for easy pipework access
