

Heat Pump Cover

Product Specification

Colour	Grey and black
Material	Heavyweight PVC and PVC mesh
Product Height	870mm
Width	1300mm

Width 1300mm, Depth 400mm, Height 870mm.

A made-to-measure temporary cover designed to protect heat pumps from dirt, dust and light damage during landscaping and final site works. The top is lightly padded for added protection against knocks, while slits at the front and back allow for easy pipework access. The cover also allows full operation for commissioning and testing, so protection doesn't compromise performance.

Features & Benefits

- Durable protection
- Reusable
- Cost effective
- Top is lightly padded
- Slits at the front and back allow for easy pipework access

Product Disclaimer

The information provided in all product, safety and technical data sheets is to the best of our knowledge correct but not all-inclusive and without warranty and is to be used solely as a guide. Similarly, all technical advice, whether verbal, in writing, or as a result of sample trials, is for guidance and is given in good faith but without warranty, since site conditions, care and skill of application are beyond our control. Protec International Ltd can accept no liability for the performance of our products, or any damage resulting from handling or contact beyond the value of the material supplied. This does not affect your statutory rights.

Every effort to ensure the accuracy of the images of our products has been made, however the accuracy of the colours may differ and vary according to your computer monitor.
