Installation Instructions/Guidelines

- Recommended application temperature +15oc to +40oc
- Installation guide depends on application. Please contact our technical department for specific advice
- We advise that any self-adhesive plastic is left down for a maximum of 4 weeks before being replaced if needed. You should always test the product on a small area of the floor surface before applying

Handling & Storage

- Store in ambient conditions. Please note the performance of adhesive products varies in extreme temperatures, subzero temperatures may cause lack of adhesion and high temperatures may cause adhesive residue to be left on the surface once the tape is removed.
