

# Building Paper

Our building paper is expertly manufactured from two layers of kraft paper, separated by a bitumen layer, providing exceptional vapour resistance. This innovative design ensures strong and sturdy temporary protection for floors.

Ideal for use on unfinished surfaces such as plywood, chipboard, concrete, and screed.

For optimal results, fold and cut the product, overlapping the edges by at least 100mm to create a water-tight floor covering. For enhanced protection against water and vapour, we recommend sealing the seams with a durable self-adhesive polymer tape.

## Features & Benefits

- Strong and sturdy temporary protection for floors
- Waterproof and vapour resistant combining two layers of kraft paper and bitumen
- Ideal for unfinished surfaces like plywood, chipboard, concrete, and screed
- Overlap of edges by 100mm for a water-tight floor covering
- 1m x 100m Roll
