

# PeelGard®

PeelGard® is a high-quality coating that effectively protects windows from damage during construction. When sprayed or rolled on, this protective solution forms a skin-tight plastic film over the window and frame, creating a barrier against damaging elements.

Please note that PeelGard® products cannot be applied if the temperature is below freezing or during rainfall. For external applications where the window is likely to be exposed to direct rainfall, ensure the window is completely dry before applying PeelGard®. To create a fully sealed barrier against the elements, you MUST also add a layer of 1090 Top Coat. This waterproof barrier has been specifically designed to be used in conjunction with PeelGard® to ensure adequate protection from further rainfall or moisture.

## Features & Benefits

- Simple to apply and easy to remove without mess.
- Offers window and frame protection for up to 12 months.
- Forms a skin-tight plastic film to create a barrier against damaging elements.
- Weather resistant when sealed with a layer of 1090 Top Coat providing optimum protection.
- Guards windows from all kinds of damage during construction.

## Product Disclaimer
