The safe and efficient way to transport large format sheet materials between floors.

Features & Benefits

- Safe & efficient way of transporting large sheet material between floors.
- Anti-slip checker lid to reduce slips or falls.
- Heavy duty steel construction for durability and safety.
- Reduces traffic on busy stairways to promote safe working practices.
- Quick and simple to install and remove once redundant.

Installation Instructions/Guidelines

- Create the opening in the floor, size to be cut is approx 1360mmx135mm. Check the product sizes on site prior to cutting any opening as sizes may vary.
- Prior to installation please ensure there is sufficient support to all sides of the opening before installation.
- The product frame should be fixed to the chipboard floor using all of the screw holes on the product.
- All screws should be a minimum of 4mm (8G) x45mm chipboard screws.
- Always leave the checker lid closed when not in use to avoid trip hazards.
- All hatches should be regularly inspected to ensure they are fit for use. Check that the frame, hinges, fixings and lid are not worn or damaged in any way. The frame needs to be secured to the floor using the appropriate screw fixings, all the screw holes should be used. Any damaged items should be replaced immediately.
