TecDura Sticky Mat

OUR TECDURA STICK MAT USES A HIGH-TECHNOLOGY, PATENTED ADHESIVE.

Features & Benefits

- Prevents slips, trips, and falls on construction sites
- One step, peel and protect solution (no base coat needed)
- 1m x 50m roll size
- Anti-slip surface for enhanced safety
- Fire and smoke retardant

Applications

The patented adhesive ensures the mat is quick and easy to attach to staircases, without the need of additional taping. No tape, no mess.

Product Specification	
Colour	Hi Vis Yellow
Material	250g/m2 , 100% Polyester fiber geotextile, Polyester film with acrylic adhesive
UV Performance	UV Resistant
Water Resistant	Yes
Weight (g/m2)	887g/m2

Range

Code	Size
TECDURAMD	1m x 50m

Certification

EN 13501

Installation Instructions/Guidelines

- Ensure the floor is clean, free of dust and debris
- Peel away approximately 12 inches of the release paper from the roll
- Start the installation at the perimeter of the room. Attach the adhesive side to the surface you are protecting, laying the TecDura MD Stickymat along the floor adjacent to one of the walls
- Roll out progressively, peeling away the release paper. For larger areas use a dry roller to smooth out
- Roll out the next length, ensure the edge overlaps on the white strip to bond and seal the previous length
- Continue the process to cover the entire area
- Ensure access points/doorway routes are secured firmly as they will take the most traffic
- Always test TecDura before use by affixing to a test area of 300mm2 for 24 hours to ensure product suitability
- Do not use TecDura on surfaces that require breathability

Handling & Storage

- Store on end or on a flat surface. Material should be stored in a cool, clean, dry environment, and out of direct sunlight.

Personal protection: Appropriate footwear should be worn when handling rolls
