

PRAGUE LAMP

44447-188

Blackened Bronze

H: 29.5 IN

Dia: 22.0 IN

Dark and mysterious, this table lamp brings light even with its own inky hue. It's completely crafted from blackened aluminum, one of our first pieces to adorn this rich finish. The result is a sort of matte graphite look, with a bit of a raw effect, which brings out the industrial edge of this lamp. It is topped with an off-white linen drum shade with white cotton lining.
