## GEMMA SCONCE

49370  
Champagne, Crystal

Form meets function with this diamond-esque sconce. The champagne crystal form possesses an arresting blend of elements and colors that helps create mesmerizing shadowplay along a wall space. When in use the sharp angles of the faceted structure are both softened and defined by its contents. An antique brass steel stem extends from a hexagon-shaped backplate to stylishly showcase this functional gem. Certified for damp locations and intended for interior use.
