

DRISCOLL SCONCE

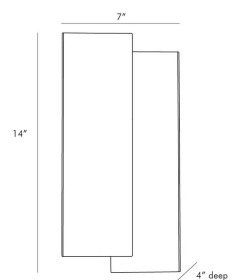

49393

Antique Brass

H: 14 IN

W: 7 IN

D: 4 IN

The sleek and straightforward design of the Driscoll is more of a modern work of art than a contemporary light solution. Two staggered steel planes in different finishes slightly overlap one another—one in antique brass one in heritage brass—creating a contrast that is highlighted when in use. Its bulbs are neatly concealed between the metal planks offering a soft glow that peeks out from behind. Certified for damp locations and intended for interior use.
