

AUGUSTUS SCONCE

49637

Antique Brass

H: 21.5 IN

W: 5.5 IN

D: 6.5 IN

The Augustus sconce perfectly balances opal glass globes against antique brass arms and backplate. More organic in form the arms of this double-light sconce extend to further cradle the glass globe and to showcase its spherical shape. A subtly sophisticated and strikingly stylish element for modern spaces. Can be mounted both horizontally or vertically. Certified for damp locations and intended for interior use.
