D: 20 IN

The John cabinet is the perfect blend of style and function. The two doors showcase a radial motif, inspired by traditional starburst designs. Two lower drawers clad in horizontal eucalyptus veneer provide a subtle base. A warm brindle finish combination highlights the natural grain of the wood. Sable finished oak veneer encases the whole piece. Rich antique brass in a concaved dish shape split in the center to create iconic door and drawer pulls. The two deep drawers and cabinet space provide plenty of storage. Wood will vary.
