

PHOEBE VASES, SET OF 3

7607

One Each, Smoke,
Rose, Teal

Three organic shapes come together in this set of stately mavens. Each is crafted in seeded glass, full of texture and movement, with dark smoke, rose smoke and teal smoke tones that recall jeweled treasures. Their magnificent height and scale give them presence in an awe-inspiring way. The stem bases are hollow and open, allowing them to double as vases for a centerpiece spread. finish will vary.
