

FLORA CENTERPIECE

9234

Ivory

H: 4 IN

Dia: 13.0 IN

There is some debate as to whether this centerpiece was inspired by the ruffles that denote an Elizabethan collar or the tentacles that waver from a sea anemone but we'll let you decide. It is crafted from white ricestone and features a rippled façade that extends from a smooth center. A great way to spotlight a few of your favorite curios on a tabletop. finish will vary.
