

LOGAN SCONCE

DWC88
 Seeded Slump
 H: 15.5 IN
 W: 9 IN
 D: 4 IN

Drawing inspiration from the phases of the moon this unique sconce features stacked semi-circles of seeded slump glass that are clasped to a stepped backplate of English bronze-plated iron. Geometric layering allows the light to radiate from the wall. Certified for damp locations and intended for interior use. Finish will vary.
