

CHELLE LAMP

PTE09-764  
 Ice Reactive, Porcelain  
 H: 32.5 IN  
 Dia: 20.0 IN

Like flowing waves, the lines of our porcelain squiggle lamp are enhanced by an ice reactive glaze that mimics water rushing down. Mutable shades accent each refined ridge at its pinch point. This porcelain essential is topped with antique brass hardware and an oval shade of ivory microfiber. Finish will vary.
