

FRASIER LAMP

PTI20-913
 Burnt Iron, Iron
 H: 28 IN
 Dia: 18.0 IN

Layer upon layer of flame-cut iron stack and rise, lending a rhythmic finish to the column lamp. The iridescent blue-black finish serves as a visual echo, enhancing the theme of found color. An off-white silk drum shade lined in off-white cotton is secured with a matching finial. Finish will vary.
