

KENSEY DISCS LARGE MIRROR

WMI97
 Burnt Iron
 D: 3 IN
 Dia: 60.0 IN

This Brutalist-inspired mirror takes seventy iron discs to construct the rounded frame. Each hand-cut disc of burnt iron must undergo an intensive process via a chemical-and-fire technique to achieve the oxidized appearance. The free-hand artistry comes together to form an industrial, rich frame with a variation of color and tone that is unique to each piece. Secured at the back with a cleat. Hanging hardware included. Finish will vary.
