HPPI-R06W-AC16

B-HP ASHP Consumer Unit fitted with C16A B-HP RCBO

6 Way Main Switch Consumer Unit pre-fitted with C16 Type B-HP RCBO, Type A RCBOs

6 Way PRO Consumer Unit pre-populated with 100A Main Switch, C16A B-HP Bi-directional RCBO, B6 & 20A Unswitched Neutral Type A RCBOs and T2 SPD, with provision for fitting up to 3 additonal RCBOs.

- Designed for use within ASHP Installations with inverter-driven compressors operating at frequencies up to 20kHz and above with a minimum tripping point of 150mA above 1kHz
- Prefitted with 6A and 20A B curve Type A RCBOs for ASHP Controls and Immersion Heater final circuits
- Compact PRO series enclosure optimised for space-constrained installations without compromising functionality.
- 100A Main Switch with dual screw terminals provide secure termination of incoming tails
- Built-in Type 2 Surge Protection Device (SPD) safeguards sensitive electronics from transient voltage spikes.

TECHNICAL DATA

Product Dimensions (HWD)	268 x 208 x 109 mm	**Barcode**	5026992058596
Product Net Weight (kg)	4.43 kg	**WEEE Category**	9
Warranty	2 years	**Country of Origin**	CN
