Isolator Switch

Isolator Switch 2 mod c/w 100A 2P

A 2-module electricity isolator switch engineered to provide safe and reliable disconnection between the DNO kWh meter and a consumer unit or distribution board. It features a 100A Double Pole (DP) Main Switch, ensuring safe disconnection of power without the need to remove the DNO cut-out fuse. Constructed from robust materials for professional use in domestic and light commercial environments.

- Two-part cover prevents access to incoming supply terminals once installed without the removal of a safety seal
- Allows safe power isolation without removing the main fuse.
- A dedicated safety screw enables a wire seal to be applied, securing the bottom cover against unauthorized access.
- Designed for use with 16mm² & 25mm² double insulated meter tails type 6181Y
- Ingress Protection Rating IP20 (indoor use only)

TECHNICAL DATA

Ingress Protection Rating	IP20	Impact Resistance (IK)	IK07
Product Dimensions (HWD)	159 x 75 x 85 mm	Product Net Weight (kg)	0.36
Barcode	5026992001004	WEEE Category	9
Warranty	2 Years
