

SLM4-SPD1PT2

Surge Protection Device

Isolator Switch 4 mod c/w T2 SPD

A double pole dual screw switch disconnector with Type 2 SPD engineered to provide safe and reliable disconnection between the DNO kWh meter and a consumer unit or distribution board. It features a 100A 2 Pole Main Switch, ensuring safe disconnection of power without the need to remove the DNO cut-out fuse. Constructed from robust materials for professional use in domestic and light commercial environments.

- Ideal for retro fitting type 2 surge protection and electricity meter switch in one unit.
- Dual screws per termination point for superior connection.
- Two-part cover prevents access to incoming supply terminals once installed without the removal of a safety seal
- Allows safe power isolation without removing the main fuse.
- A dedicated safety screw enables a wire seal to be applied, securing the bottom cover against unauthorized access.

TECHNICAL DATA

Ingress Protection Rating	IP20	**Impact Resistance (IK)**	IK07
Product Dimensions (HWD)	156 x 106 x 71 mm	**Product Net Weight (kg)**	0.545
Barcode	5026992055151	**WEEE Category**	9
Warranty	2 Years
