

A high-resolution, dualhead KVM extender with DisplayPort connectivity. Ultra-high definition 4K60 video, USB2.0 and audio are transmitted on a single CATx or fiber cable.

A high performance KVMA extender that is designed to provide reliable and real-time access to critical computers while maintaining the same user desktop experience. Developed for enterprise organizations and high-pressure control rooms, it combines the simplicity of true plug and play and high performance 4K KVM extension for superior functionality and flexibility.

ADDERLink® XD642 T

Features

Dual-Head DCI 4K60 Video

Supports Dual-head 4096x2160@60Hz (DCI 4K60) with 24-bit colour and 4:4:4 chroma. A fiber connection is required for dual 4K60 operation, however dual 2560 \times 1600@60Hz is supported over CATx cable.

Up to 4km Extension

Supports both copper and fiber interfaces. Provides a range of up to 100m/328ft over a CAT6 cable link, and up to 4km/2.5 miles over an optical fiber link (Fiber SFP modules sold seperately).

Emulated and Hi-Speed USB 2.0

USB 2.0 emulation ensures reliable connection of full and low speed HID devices (mouse or keyboard). Mass storage devices and isochronous devices, such as webcams and audio headsets can also be used through the transparent USB 2.0 Hi-Speed port.

Plug and Play

Uses a low-latency point-to-point protocol over a single CATx or fiber cable that works as soon as it is connected. No network set-up, driver or software is required.

1

Digital Audio over DisplayPort

Supports up to eight channels of 24-bit, 192kHz sampled PCM audio over the DisplayPort connection.

Analog Audio

Plug analog line in/out and headphones directly into the receiver. Audio is transmitted as bi-directional stereo 24bit/96kHz using either analog or USB connection to the host.

Monitor Compatability

EDID management allows the monitor capabilities to be passed back to the host computer for optimum compatability.

Serial communications

RS232 can be passed between the units to a maximum rate of 115200 baud with RTS/CTS flow control.

Video Information (1 Screen)	
Maximum Resolution (1 Screen)	4096 x 2160
Frame Rate (1 Screen)	60 Hz
Color Depth (1 Screen)	8 bpc
Video Information (2 Screen)	
Maximum Resolution (2 Screens)	4096 x 2160
Frame Rate (2 Screens)	60 Hz
Color Depth (2 Screen)	8 bpc
Video Additional Information	
Video Additional Information	2x 4K60 requires a fiber connection
Computer Connections	
USB B	1x 2.0, True Emulation (HID Only),Full Speed
USB B	1x 2.0, Transparent, High Speed
Full Size DisplayPort	2x 1.2
Link Ports	
8p8c (RJ45)	1x
SFP+	1x
Serial Ports	
Serial Connection	1x RS232
Maximum Baud Rate	115200
Serial Additional Information	with RTS/CTS flow control
Serial Connection Type (console)	RJ12 (6p6c)
Audio Connections	
Audio Type	Analog/Digital
Channels	2x
Audio Direction	Bi-directional
Audio Additional Information	Also supports 8 channels of 24-bit/192kHz PCM
	audio over the DisplayPort connection.
Size (bit)	24
Speed (kHz)	96
Audio In Port	1x 3.5mm jack
Audio Out Port	1x 3.5mm jack
Cable Requirements	
CAT5e	50m / 164ft

What's in the Box?

1x TX and RX pair

2x Power supply unit with country specific mains cable

2x DisplayPort™ cable (VSCD18)

1x USB cable (VSC24)

1x 2m/6ft Audio cable

1x Quick start guide
