COLLINGWOOD
LIGHTING

LIGHTING INNOVATION

Adding style and flair to any design scheme, bollards can add depth and dimension to a landscape. Made in Great Britain, this high-quality bollard is made from hardwearing and aesthetically pleasing Iroko wood with sleek chamfered top and features a single LED for a neat and concentrated beam of light. Perfect for use with driveways and pathways, this bollard can be purposely positioned in a uniformed capacity to highlight a space or integrated into a landscape feature. For added flexibility, we have provided two cable entry options - side or base - depending on whether the bollard will be recessed or surface mounted, and a choice between three white LED colour options.
