# LED-Cover

## Translucent Cover For Led Illuminated Stair Profiles

### PROPERTIES

Translucent cover for CONSTRUCT-LED, SQUARESTEP-LED and FLORENTOSTEP-LED
Adhesive (double-sided) strip factory-applied to one side

### MATERIAL

Polycarbonate

### CARE

Polycarbonate does not require any special care. If necessary, it can be cleaned with clear, clean water and a few drops of washing-up liquid. Then wipe dry.

### PROCESSING

1. Cut the cover to size.
2. The profile must be cleaned and any contaminants such as release agents, preservatives, grease, oil, dust, water, old adhesives/sealants and other substances that impair adhesion must be removed.
3. Remove the protective film from the adhesive strip and stick it to the desired position in the profile.

The generally accepted rules of technology and tiling must be observed. Suitability for use with mechanical and chemical resistance must always be checked in each individual case.

### TECHNICAL DIMENSIONS AND PRODUCT VARIANTS

Please note: For technical reasons, tolerances in color effects of the materials and print are possible.
All information is based on the best of our knowledge and belief. No guarantee can be derived from this.
We reserve the right to any technical changes if they are in the interest of progress or if they are production-related.
