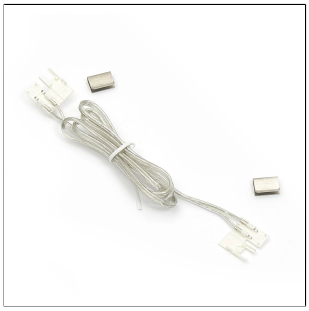
LED-Connection cable

Cable for direct connection of two LED strips IP 20
“Emotion/Warm white” (clip / clip)



TECHNICAL DIMENSIONS AND PRODUCT VARIANTS

Length	5 cm, 200 cm
Width mm	0.8 mm

PRODUCT VARIANTS

Ident	Length
LED VBK 10	5 cm
LED VBK 200	200 cm

Data sheet Accessories

Connecting cable for direct connection of two LED Stripees "Emotion/Warm White" (clip/clip)

PROPERTIES

Connecting cable for direct connection of two LED Stripees "Emotion/Warm White" (clip/clip)

PROCESSING

1. Lift the clip on the connector.
2. Open the connector.
3. Remove the protective film from the end of the LED strip to expose the connection point.
4. Position the LED strip at an angle and slide it under the connection terminals with the solder pads.
5. Align the LED strip straight. Press the recesses of the LED strip into the webs of the connector.
6. Close the connector. Click the clip over the retaining tab.
7. Slide the clip on the side opposite the clip over the connector.
8. Position the clip on the front edge of the connector so that the LED strip cannot slip out of the connector.

Caution! Avoid polarity reversal! Pay attention to the symbols on the corner connector and the LED strips.

Please note: For technical reasons, tolerances in color effects of the materials and print are possible.
All information is based on the best of our knowledge and belief. No guarantee can be derived from this.
We reserve the right to any technical changes if they are in the interest of progress or if they are production-related.

The generally accepted rules of technology and tiling must be observed. Suitability for use with mechanical and chemical resistance must always be checked in each individual case.
