EN Datasheet

# DIAMONDTRED

## Anti-Slip Safety Insert

## PROPERTIES

DGUV test IFA 2404171: Slip resistance class R10, displacement space V6
Resistant to sunlight, oils, fats, petrol, salts, acids, alkalis and cleaning agents
For all steps in indoor and outdoor areas

## CARE

PVC does not require any special care. If necessary, it can be cleaned simply with clear, clean water and a few drops of washing-up liquid.

## PROCESSING

Easy to install thanks to self-adhesive backing. The adhesive surfaces must be cleaned and any contaminants such as release agents, preservatives, grease, oil, dust, water, old adhesives/sealants and other substances that could impair adhesion must be removed.

The generally accepted rules of technology and tiling must be observed. Suitability for use with mechanical and chemical resistance must always be checked in each individual case.

## TECHNICAL DIMENSIONS AND PRODUCT VARIANTS

| | |
|---|---|
| Material | [PVC] |
| Surface | [anti-slip] |

Please note: For technical reasons, tolerances in color effects of the materials and print are possible.
All information is based on the best of our knowledge and belief. No guarantee can be derived from this.
We reserve the right to any technical changes if they are in the interest of progress or if they are production-related.
