

# STEP MARK

Step marker for marking the first and last step of the staircase

## PROPERTIES

For marking the first and last steps of stairs to highlight contrast.  
Self adhesive.

## PROCESSING

1. The surface must be cleaned. Any contaminants such as release agents, preservatives, grease, oil, dust, water, old adhesives/sealants and other residues that could impair adhesion must be completely removed.
2. Remove the protective film from the adhesive strip, align the tape and stick it in the desired position.

The generally accepted rules of technology and tiling must be observed. Suitability for use with mechanical and chemical resistance must always be checked in each individual case.
