

TERRAZZO

Brass Divider

MATERIAL

Brass is particularly suitable for indoor areas with medium mechanical loads.

Brass oxidises (patinates) in the air. When used in damp rooms or in conjunction with aggressive cleaning agents, this process can intensify and stains may form. If necessary, polish with special cleaning pastes.

The applicability with regard to mechanical and chemical resistance must always be checked in each individual case.

CARE

Brass does not require any special care. If necessary, it can simply be cleaned with clear, clean water to which a few drops of household cleaning agent (washing-up liquid, citric acid) have been added. Then wipe dry.

The patina that develops over time on untreated brass surfaces can be removed by polishing with a soft cloth and washing-up liquid or citric acid. Then wipe dry.

Do not use abrasive products.

PROCESSING

1. Select the profile according to the thickness of the flooring.
2. Apply sufficient tile adhesive to the floor next to the last row of tiles laid.
3. Press the profile in until it is flush with the surface of the flooring.
4. Lay the next row of tiles.
5. Leave a grout line of 1-2 mm to the profile in each case.
6. Fill the space between the tiles and the profile completely with grout.

Protect visible surfaces from contact with tile adhesive or grout and, if necessary, clean immediately with a cloth and clear water. Then wipe dry.

Please note: For technical reasons, tolerances in color effects of the materials and print are possible. All information is based on the best of our knowledge and belief. No guarantee can be derived from this. We reserve the right to any technical changes if they are in the interest of progress or if they are production-related.

The generally recognised rules of technology must be observed. The suitability with regard to mechanical and chemical resistance must always be checked in each individual case.

TECHNICAL DIMENSIONS AND PRODUCT VARIANTS

Material	[Brass]
Surface	[natural]
Colour	natural
Length	250 cm
sight width	5 mm
Height	10 mm, 25 mm
Width mm	5 mm

PRODUCT VARIANTS

Ident	Height	Surface	Colour	Length
TZM 5310/250	10 mm	natural	natural	250 cm
TZM 5325/250	25 mm	natural	natural	250 cm
